

# Kofax ControlSuite for Healthcare

Secure, govern and manage your documents with content-aware unified printing, document capture and workflow process automation.

## The Digital Age Requires a New Way of Working

Kofax ControlSuite for Healthcare speeds healthcare worker productivity, minimizes security breaches, and reduces compliance costs with the most intelligent, integrated, and innovative print and capture feature set.

Your organization can leverage these integrated capabilities to adapt to the rapidly changing landscape of increased demand for information access, the increased threats to that information as well as increased compliance mandates.

Kofax ControlSuite for Healthcare addresses the specialized print, capture and document workflow needs of hospitals and health organizations. It helps them navigate the landscape of cyber-attacks, toughening privacy regulations such as HIPAA and GDPR and an increasingly mobile workforces. Its integration with Kofax TotalAgility enhances intelligent capture capabilities and transforms business process automation across enterprise document management workflows.

## How Does Kofax ControlSuite Work?

Kofax ControlSuite for Healthcare is a single, integrated, easy-to-manage solution that can be configured to automate a wide range of document- and information-dependent tasks. The package is purpose built for healthcare and its core business functions include:

### **Security**

Manage, secure, and govern your healthcare documents through unified printing, scanning, and automated workflows.

### **Productivity**

Ensure healthcare documents get to all the right people at the right time, every time, through the right workflows and processes.

### **Compliance**

Maintain a record of print and capture document workflows for tracking and auditing.

### Benefits of Kofax ControlSuite

Kofax ControlSuite for Healthcare is an innovative, adaptable enterprise software solution within the Kofax Intelligent Automation platform that integrates best-in-class document capture, print management and output management capabilities to deliver key benefits in support of digital transformation initiatives, including:

**Securing your healthcare information** to prevent unauthorized use, and maintain the organization's reputation and customer trust.

**Increasing the productivity and efficiency of your workforce** by enhancing and enriching information quality and detail, while simultaneously reducing errors and redundant manual tasks associated with managing and processing documents and information.

**Ensuring that operational processes remain compliant** by automatically applying consistent business rules and tracking the movement of healthcare documents and information.

### Kofax ControlSuite Core Services

Kofax ControlSuite for Healthcare combines "best-in-class" print management, document capture and output management capabilities to apply security controls, track and monitor compliance policies, and automate healthcare document collection, processing, routing and storage tasks. Each set of capabilities is enabled as a collection of sharable services that can be initiated at virtually any step in the workflow, including steps that begin as printing tasks, scanning, email receipt, system output streams or data exports, and many more.

#### Print Management Services

- Unified authentication (MFP and mobile)
- Secure print release
- Usage tracking and auditing

#### Capture Services

- Multichannel capture integration (mobile, MFP, desktop, email, etc.)
- OCR conversion
- System-to-system connectors

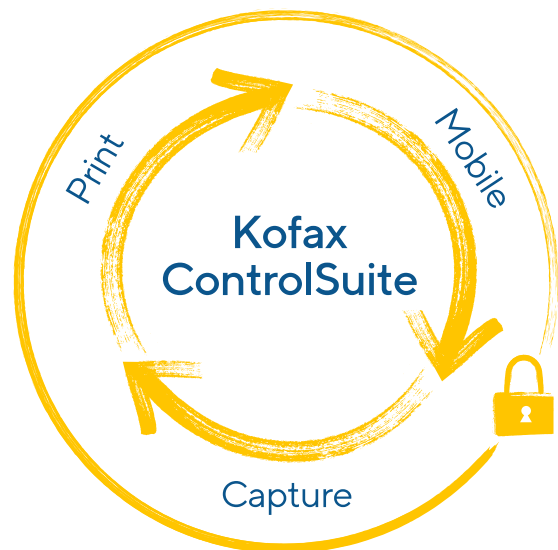

#### Output Management Services

- Information monitoring
- Information redaction
- Secure document quarantine and release
